Chat Agent

Chat Agent Reasoning

Thought

The user wants me to create an email draft to cameron.hightower@proton.me describing Juniper's functionality. This requires using email capabilities, which the integrations agent has access to.

Action

call\_integrations\_agent: "Please create an email draft to cameron.hightower@proton.me with a subject about Juniper AI and a body that describes Juniper's functionality as a multi-tenant platform."

2. Agent Response

8:55:07 AM

Integrations Agent

Integrations Agent Reasoning

Thought

The user wants to create an email draft. I need to find the right tool to do this. Based on the user's request and the available integrations, I should look for a tool within the Gmail service that can create a draft.

Action

initial\_md\_fetch: {"service\_name": "Gmail", "search": "draft"}

#### Resource Retrieval
